

# CONTENT MANAGEMENT CONSOLE 2.0b MARS

## musiklizenz.net – Your digital service provider

**Full-service** or **individual** provider of sophisticated, state-of-the-art **technology, distribution & marketing** of content. Serving more than **400 digital platforms** through only one distribution partner and with **one tool for everything**: uploads, sales statistics, cloud computing and many additional features. Your focus remains the **creative work** while we offer the **technical platform** and **personal support**.

We work *for* you - and *with* you by offering customized solutions.

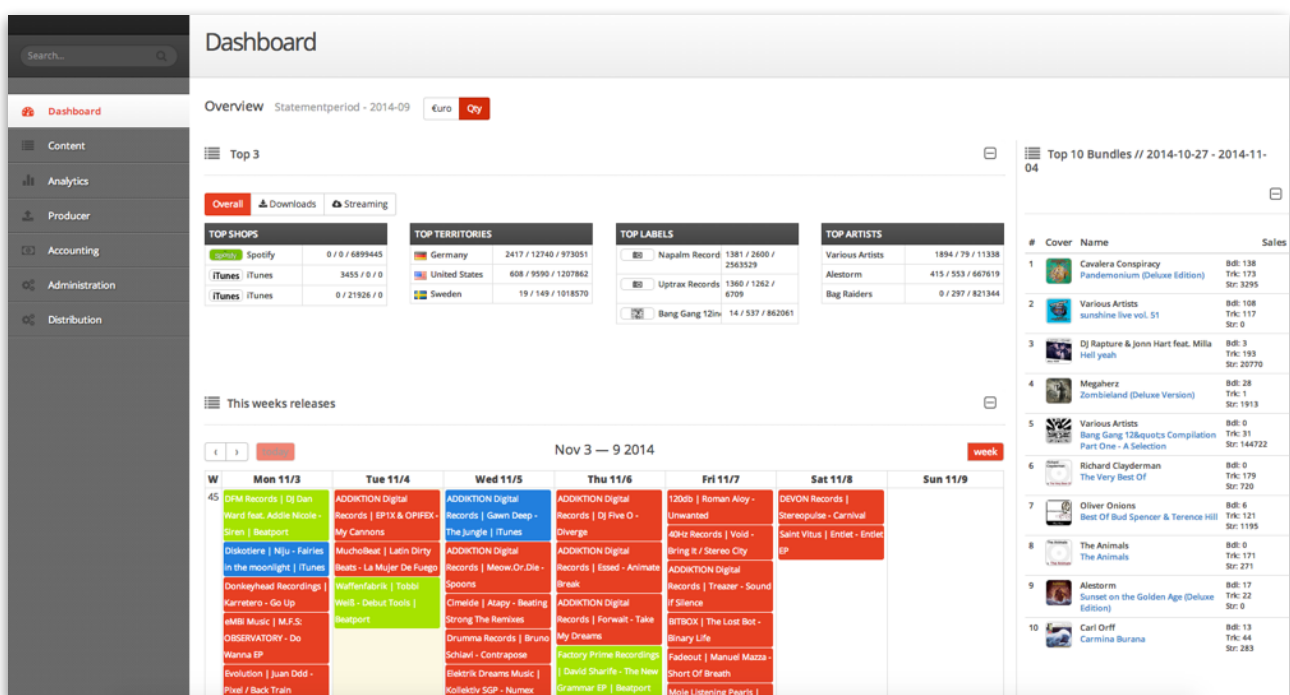

## Our new back-end solution for the distribution of your digital content:

The overview of your content and sales is more detailed and flexible - you will love the new possibilities!

Here we're providing you with a first impression of our new back-end solution for our distribution customers, the „**Content Management Console (CMC) 2.0b MARS**“. Coming with a whole **new look & feel**, **new features** and state-of-the-art **web frameworks**. The basic functionality is simple and clear as usual: You can get **direct access** to all essential tools needed for daily work, **simple user management** and your relevant data will be **accessible** from everywhere: This provides **transparency**, **saves time**, makes the workflow easier, reduces mistakes, and **increases revenue** for you in the long-run – and this at **no extra costs**.

## The Dashboard

The **dashboard** provides a **quick overview** of your sales figures and revenue, your **top retailers**, **territories**, **labels** and **artists** - and you can **customize** the view by choosing **downloads**, **streams** or **both**.

The brand new **calendar view** allows a detailed but tidy view of your upcoming releases - with a visual distinction of the most important retailers like **iTunes** (blue) and **Beatport** (green) or **general release dates** (red).

On the right side you can find a summary of your **most successful bundles and tracks** of the week, separated into sales and streams. These figures are **daily trends** provided by some major retailers. Please notice that these figures are only **forecasts**, the final numbers will be provided in your statements.

## The Analytics Area

The **most spectacular** innovation is our entirely new analytics tool with a **customizable** view and an extremely **flexible, detailed** and fast **filtering** system. This feature is really fun - and of course very effective and informative.

## The Producer

The **CMC Producer** is the core of our system: this is the place to **manage your content**, before publishing and delivering it to the stores. (Sub)labels, **products** (bundles) and **tracks** can be created and edited, **audio** and **artwork** files can be uploaded as well as your **marketing drivers** in the „Sales Facts“ section.

## Accounting

The CMC 2.0b MARS features a **completely reprogrammed** customer management and **accounting** system. As a customer, you can create statements for each of your sub-labels and even for **single artists** and have a **clear overview** on your financial status.

Accounts current

## Administration

The CMC features a completely new system of **user management** and **rights administration**: create logins for your sub-label manager or employees and provide them with individually assigned rights.

The screenshot displays the 'Usermanagement' interface. At the top, there are 'Save' and 'Cancel' buttons. The interface is divided into two main sections: 'Userinfo' and 'Picture'.

**Userinfo Section:**

- Username:** A text input field.
- Full Name:** A text input field.
- User eMail:** A text input field.
- Belongs to (Customer):** A dropdown menu.
- Password:** A text input field with a red border.
- Repeat password:** A text input field with a red border.

**Picture Section:**
